DRUGGED AND ROBBED

An Eccentric Bridegroom Relieved of \$147,000 in Certified Checks.

SEWED THEM INTO HIS HAT

He Didn't Show Up at the Hour Set for the Wedding and So the Bride Notified the Police.

CHICAGO, June 2.—The police are searching for M. P. Chapman, 35 years old, of 447 West Van Buren street. Chapman was to have been married last night to Mrs. Mary Burkett. He left home to draw \$2,000 from the bank. Mrs. Burkett notified the police after the wedding guests had assembled that her fiancée was missing. He had worn \$147,000 in checks and securities sewed into his hat. She feared he had been robbed and murdered. Chapman was sandalaged and robbed several years ago, and as a result he became deaf. He is a well known speculator. His eccentricities caused comment. One of his peculiarities was a fondness for cheap apartments. Chapman returned home during the day. He says he was met by three men on the way down town, overpowered, drugged and when he recovered consciousness 12 hours later found that his \$147,000 in certified checks with considerable cash had been taken.

NOW THEY'RE "CONCERT HALLS"

The Old Beer Joints Revived Under New Conditions.

BUTTE, June 2.—The old concert halls on East Park street are reopening one after the other, but they are being conducted within the lines of the law. The Palace, the third one to reopen since the raid, was running to-night. The Coliseum opened during the past week, and the Clipper Shades, the first to start under the new system, has been running for several weeks. The three are now running full blast, but strictly as concert halls. Liquors of no kind are sold in the places, although each has a convenient hallway connecting with a bar in some adjoining building. The women in the place are employed only for turns on the stage and are paid salaries and no percentage, and they are not permitted to handle drinks or enter the barroom, and the new places seem to start out with prospects of good business. The proprietors of the concert halls say they have no proprietary interests in the adjoining buildings and believe that if they conduct decent places they will not be molested by the law.

Lillie Reed's place and Rita Anderson's Newport have been running right along the same as they did before the prosecutions were inaugurated, with the exception that the women are not allowed to congregate in the barroom. But these places have been turned into houses that, in respect to morality, are worse than the beer halls were. During the time the beer halls were closed, East Park street and the entire lower part of town was about as dead as Silver Bow junction and even men in legitimate business began to wish that the concert halls would resume. It is the opinion of the officers that the law cannot reach the places under the conditions that they are now being conducted.

The old beer hall proprietors had once intended to try to get around the law by giving every woman employe an interest in the house and thus make her a proprietor, but the authorities warned them not to attempt it, and they did not.

PROF. F. W. WHITTIER,

GRADUATE OF

OPHTHALMIC SCHOOLS.

SCIENTIFIC OPTICIAN

Has taken rooms in Beaver Block, corner of Grand and Main streets, office, Room 12, Butte, Montana, where he will remain for a short time. He can be consulted free of charge, whether it be for spectacles or otherwise. Office hours from 9 a. m. to 5 p. m. Don't fail to consult me about your eyes. I am enabled to tell on the first examination any ailment of your failing sight, and give you glasses to suit the defect of the eye which will aid in restoring and strengthening the eyesight of the young and old.

As errors of refraction, defects of sight of the eyes are daily assuming more importance and engaging the attention of our most able and scientific oculists, I have made the adaptation of

SPECTACLES A SPECIALTY.

Certain forms of eye troubles, which were formerly looked upon as diseases of the inner covering of the eye are to-day relieved by scientific test of the eye and by using such glasses to correct the errors of refraction and accommodation as the examination will prove.

EYES OF DIFFERENT FOCUS.

As many eyes, on careful examination, are of different focus, it is found necessary that such eyes should be fitted with a compound of optical, on examination with the ophthalmoscope, as the ordinary test with the optometer or test types cannot be relied upon in such cases. I correct the most difficult cases in the various forms of hypermetropia or far sight, Myopia or near sight, Diplopia or double sight, Isthemia or weak sight, Amblyopia or loss of accommodation, Presbyopia or old sight, Astigmatism or blurred vision, Stabismus or cross-eyed.

Artificial Eyes Inserted Without Pain.

If you have lost an eye by accident or disease, be sure to call on me and I will insert an artificial eye which will move and look like the natural eye and improve your looks.
